

# Online Master in Sustainability Management

## Motivation

The Online MSc in Sustainability Management at RSM offers a flexible, academically rigorous programme that allows me to apply sustainability knowledge directly to our organisation's challenges. As sustainability becomes central to strategy, compliance, and innovation, this programme will equip me with the tools to lead meaningful change aligned with our environmental, social and governance (ESG) goals.

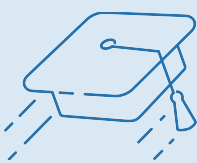

## Benefits

The Online MSc in Sustainability Management is designed for professionals aiming to lead and manage sustainable initiatives within organisations. The programme offers a flexible online learning environment without compromising on the quality and rigour of education. Participants will engage with a diverse cohort and experienced faculty to explore theoretical foundations and practical applications of sustainability in business contexts.

## Why RSM

The university is world-renowned for its excellence in the field of management education.

### Triple Crown

Part of the 1% of business schools with Triple Crown Accreditation

I have personally opted for the RSM Online MSc in Sustainability Management for the following reasons:

The highly qualified and internationally diverse student body brings a wide range of professional and academic experiences, enriching collaboration and learning.

**"The course has already helped me apply sustainability concepts directly to my work. It is taking me closer to the future growth I envisioned for myself."**

**Ayshwarya Rajagopalan**  
(Cohort Sep 25) Senior Associate Impact, Climate Collective Foundation, based in India

Moreover the programme is Internationally relevant curriculum, integrating current best practices and diverse perspectives on sustainability management and sustainable business solutions. It provides a balanced and inspiring learning environment that will effectively complement and strengthen my business and management experience with specialised knowledge in sustainability leadership. As a result, this investment will both support and enhance our internal capabilities in addressing sustainability challenges and opportunities as well as support my professional growth inside the company.

Finally the convenient part-time, fully online structure will allow me to continue contribution to core responsibilities while advancing expertise. This also ensure that my newly acquired knowledge can be directly applied to current direct projects, and bring immediate value and support of the our strategic development.

**"The academic research and insights [...] have helped me conceptualise the complex sustainability topics that companies face, directly linking theory to the real-world issues I come across."**

**Melina Gkiolma**, (Cohort Sep 25),  
Sustainability Consultant, Koan, based in  
The Netherlands

From current sustainability students surveys:

**4.89**

**"I recommend this  
online programme to  
others"**

## Company Value

The programme's content addresses the very challenges we face as a business. Studying alongside experienced professionals from diverse industries creates a strong exchange of practical insights, enabling me to bring proven approaches, new perspectives, and innovative ideas directly back into our organisation.

This knowledge transfer strengthens our internal capabilities without requiring external consultancy, making it a cost-effective investment in building long-term expertise. The programme also enhances my ability to translate sustainability theory into actionable business strategies, improving decision-making, risk management, and operational efficiency across projects.

The MSc supports our organisation by fostering a more forward-looking, responsible, and resilient business model. By staying aligned with the latest developments in sustainability, regulation, and innovation, the company can maintain a competitive advantage and respond proactively to evolving market expectations.

It will also provide valuable insights to help accelerate our progress.

Through this programme, I will further strengthen skills critical to our organisation, including:

- Developing effective corporate responses to sustainability challenges
- Communicating sustainability initiatives with clarity and impact
- Strategic thinking and scenario planning
- Problem-solving, collaboration, and communication
- Adopting a global outlook and innovative mindset

## Programme fees

The fees for the Online MSc in Sustainability Management are €19,000. Payment in full could qualify for discount. Below is an example of a payment plan.

Payment	Deadline	Amount

2nd Instalment	30-November-2026	€4000
3rd Instalment	31-August-2027	€4000
4th Instalment	30-November-2027	€4000

## Support Requests

To successfully complete this programme while continuing my current job responsibilities, I respectfully request the following support:

**Time:** Flexibility to dedicate 19 hours per week to study, including occasional time off for exams or deadlines.

**Financial:** Tuition fees.

**Project Work:** Opportunity to align the final project with a sustainability initiative within our organisation.

## Application deadline

The application deadline for the online master's programme operates on a rolling basis. Therefore, applicants are encouraged to apply early to secure their place. This means that if the maximum number of students for the cohort is reached, applications will be closed before the second application deadline.

**First application deadline: 17 April 2026**

**Second application deadline: 17 July 2026**

## Conclusion

The Online MSc in Sustainability Management extends its impact beyond the individual to benefit the organisation and contribute to broader industry transformation. The value of this programme is reflected in real-world sustainability projects, strategic ESG initiatives, and the ability to future-proof business models in response to growing environmental and social pressures.

From a personal standpoint, this is the right time in my career to pursue this qualification. My current experience aligns closely with the programme's emphasis on responsible leadership, systems thinking, and practical application. The skills, insights, and professional network I will gain will position me to take a more strategic role in advancing our collective sustainability goals.
