

Erasmus Platform for Sustainable Value Creation

Driving impact through co-creation

Accelerate your organisation's transition to sustainable finance.

The Erasmus Platform for Sustainable Value Creation connects leading financial institutions, corporates, and policymakers with world-class research from Rotterdam School of Management, **to turn sustainability challenges into strategic opportunities.**

Why join the Platform?

Partners gain:

- **Strategic advantage**
Stay ahead of regulatory, market, and sustainability developments through cutting-edge research.
- **Access to leading experts as sparring partners**
Collaborate with leading academics and industry experts across finance, business, and policy.
- **Thought leadership & visibility**
Participate in high-level research events, publications, and policy discussions.
- **Talent pipeline**
Engage top talent through student projects, workshops, and executive education.
- **A powerful network**
Connect with organisations and changemakers shaping the future of sustainable finance.

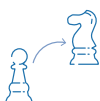

Bottom line: Our platform provides the intellectual space to help you rethink what sustainable finance can be.

What we do

Dissemination & Tools

- Co-develop research addressing real industry challenges relevant to YOU.
- Practical tools and frameworks for strategic implementation.
- Open-source financial sustainability toolbox
- High-level annual conferences & workshops
- Regular practice-oriented events

Building Capability

- Executive courses on sustainable value creation, policy & regulation
- Embedded sustainability in business education
- Partner-supported learning projects with top students

Build a Network

- Impact dinners & research circles
- Thematic expert working groups
- Direct interaction with academia & policy leaders

Our mission

Guide and catalyse the economic and financial transition to sustainable value creation by connecting research, practice, and education. We do this through actionable and impactful research, translating academic insight into real-world change.

Our network

EPSVC offers a unique space where forward-thinking companies, academics, and policymakers **come together to drive meaningful change**. Our ideal partners share a strategic mindset, senior-level engagement, and a drive to advance integrated value creation.

Examples of our impact

Recent initiatives of EPSVC:

- We regularly publish **working papers** such as: **A real economy approach to integrated investing and portfolio management** - introducing the "futureproofing ratio," helping investors assess companies' long-term resilience.
- Created the **"Toolkit for Transition"** with the Impact Institute - practical tools for organizations navigating the sustainability shift.
- **Online courses on Principles of Sustainable Finance and Sustainable Corporate Finance** - bringing our research to a worldwide audience through programmes featuring leading industry experts.
- **"Conservation through Conversation"** with ASN Bank – on leveraging biodiversity to enhance investor engagement.
- Hosting **in-depth webinars and high-level events** bringing together academia, industry, and policymakers.

These projects—and many more—are all freely accessible at rsm.nl/sustainable-value.

Ready to join?

By becoming a partner, you gain more than access to insight — you join a powerful network helping shape the future of sustainable finance.

Contact our directors Eva Rood at erood@rsm.nl and Nathan de Arriba-Sellier dearribasellier@rsm.nl to explore how your organisation can benefit from and contribute to the Platform and discuss membership opportunities.
