Figure 2 – create a *studielink* account

The Create *Studielink* account page (fig. 2) is fairly straight forward with the exception of the “nationality” field. The makers of *Studielink* were unfortunately not consistent in how they named nationalities. For example, if you are from the Netherlands your nationality could be listed as: Dutch, The Netherlands or Citizen of the Netherlands. If you have problems finding your nationality, try looking for any of these combinations.

In the ***e-mail field***, please use the same e-mail address that you will be using to correspond with RSM. **Avoid using your current school email account as this may be blocked once you have graduated from school and we will not be able to contact you. We advise against using your parents' e-mail address, particularly if the e-mail address was previously used for another sibling applying to IBA. If an agent submits your application on your behalf, we strongly recommend that the agent uses your e-mail address.**

After you have created your account, a confirmation e-mail will be sent to your e-mail address with a link to activate your account. To continue the registration process, log back into the system using the e-mail address and password.

2. Add previous education

The next step in the registration process is to add your previous education. You will be asked if you have already obtained a diploma: click “yes” or “No, not yet”.

When you enter the country where you studied, you will be shown a pick list of diploma names for that particular country in the field “previous education level”. In most cases only secondary school diplomas are listed. If that is the case, please choose the option “other”.

Please add **only** the diploma that gives you access to the BSc programme you will be starting in September (Dutch applicants who have already obtained their VWO diploma will have their diploma listed here – this is fine). If you have not graduated yet, enter the (approximate) date on which you will complete all requirements for obtaining your diploma (this must be **before 1 August** or you cannot start your studies at RSM).

When you are finished entering the details of your previous education details, click on “Confirm”.

3. Enrolment application

One of the most important steps in the registration process is enrolling for the correct programme: “**choose a study programme**”. In the search field you must enter the programme **Bachelor International Business Administration IBA (RSM) (English) (Numerus Fixus)**. Use the correct study programme name, starting with **BACHELOR** (not to be confused with the **English Language Premaster (online) RSM**). To narrow down the results, you can add the following fields (fig. 4)

Educational Institution : Erasmus Universiteit Rotterdam
Type of study programme : WO Bachelor
Academic load : Full-time

The screenshot shows a web interface for submitting an enrolment application. At the top, there is a progress bar with five steps: 1. Previous education, 2. Choose a study programme (highlighted), 3. Study programme details, 4. Institutional questions, and 5. Confirm. Below the progress bar, there is a search bar with the text 'International Business IBA'. To the right of the search bar, there is a '1 RESULT' section. The result is for the '(BACHELOR) INTERNATIONAL BUSINESS ADMINISTRATION IBA (RSM)' programme. The search filters on the left are: Erasmus Universiteit Rotterdam, WO Bachelor, Full-time, and English. The result card shows 'Full-time' and 'Numerus fixus programme' (circled in red), along with a UK flag icon. Below the result card, there are details: Study programme level: WO Bachelor, Educational institution: Erasmus Universiteit Rotterdam, Location: ROTTERDAM, and Start as: Both first-year and advanced-year students. A 'Select' button is at the bottom right of the result card.
