

Policy Regarding Lecture Talks

Programme Management of the BSc programmes does not permit students (individuals, student associations, study associations, etc.) to make presentations at the beginning of course lectures, nor during the break. Such presentations can be perceived as disruptive and they frequently result in a delay in the following lecture.

Policy Regarding SIN-Online Messages

Programme Management of the BSc BA and IBA programmes will only post a maximum of 2 SIN messages on behalf of student/study organizations per trimester and 1 message in the summer on the IBA Notice Board and/or BA prikbord. The IBA Notice Board and BA Prikbord are general information channels that all BSc students are added to at the beginning of the academic year.
