

## Welcome to the Turnitin Blackboard Integration Instructor User Manual.

The Turnitin Building Block extension gives users of the Blackboard Learning System the ability to use Turnitin products within their Blackboard interface. Turnitin provides plagiarism prevention services, class management tools, and paperless digital grading products to educational institutions around the world.

### Please Note:

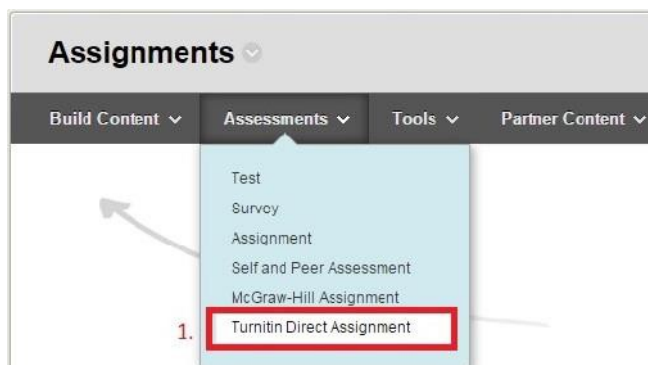

Due to compatibility issues it is recommended to make use of the Firefox web browser when working with Turnitin.

Using internet Explorer with Turnitin will cause loss of some functionality.

This will be addressed in a future update.

## Creating a Turnitin Assignment

Turnitin assignments are added from the course home page . Click Assignment on the left side of the course menu and then click on the *Turnitin Direct Assignments* link on the assessment pulldown menu.

### To add a Turnitin assignment, follow these steps:

1. On the assignment creation page, enter the following:  
the *assignment title* and *assignment Description*

#### Assignment Details

\* Assignment Name

Assignment Description
