

RSM Pre-selected Chinese Universities

Applicants with a bachelor's degree awarded by a university in mainland China must have obtained their degree from a university included on this list.

Universities are included if they are part of the current national Double First-Class initiative (双一流) administered by the Chinese Ministry of Education, or if they have been separately approved by RSM following an institutional review.

Inclusion on this list means that a degree may be considered for further academic assessment. It does not guarantee admission, nor does it mean that every degree programme offered by the university is comparable to a bachelor's degree from a Dutch research university (WO).

RSM assesses each applicant's degree individually, including its level, academic orientation, curriculum and relevance to the chosen master's programme. Applicants must also meet all programme-specific admission requirements, including those relating to grade average, GMAT or GRE scores, and English language proficiency.

RSM may review and update this list for future application cycles. Any revisions apply from the stated effective date and do not affect applications submitted before that date.
