

About Us

Eurofins Scientific is an international life sciences company, which provides a unique range of analytical testing services to clients across multiple industries. The Group believes it is the world leader in food, environment, pharmaceutical and cosmetics products testing and in agrosience CRO services. It is also one of the global independent market leaders in certain testing and laboratory services for genomics, discovery pharmacology, forensics, CDMO, advanced material sciences and for supporting clinical studies. In addition, Eurofins is one of the leading global emerging players in specialty clinical diagnostic testing.

In 2018, Eurofins generated 4.2 billion Euro proforma turnover in 800 laboratories across 47 countries, employing about 45.000 staff.

What We Look For

We encourage independent thinkers who challenge the status quo and never accept the markets or the company's "usual way of doing things" if they can find smarter ways of delivering excellent results every day. But independent doesn't mean doing it alone: across all our countries we pull together as a team because we understand we're stronger and smarter together. Above all, we are a meritocracy, promoting people based on talent and results to create an international career like no other.

What we offer

Are you a top Bachelors or Masters students with an appetite for hands-on work experience at one of the world's fastest-growing companies? If so, then an internship at Eurofins will deliver the experience and exposure to kickstart your career. You will work on projects with real impact, gaining exposure to a range of business and/or scientific challenges and be supported by intensive coaching from our talented leaders. We're looking for Masters/PhD student or penultimate year Bachelors student, majoring in engineering, business, law, chemistry or biology, at a top university or business school. You need to have excellent communication skills (English language is a must), a positive can-do attitude and a passion to learn and stretch your abilities. Our paid placements last 6-12 months and those who impress can expect an offer for a full-time position with Eurofins on graduation.
