

### About Us

Awarded as Consultant of the Year 2019 we are one of the leading management consultancies with offices in Kronberg i. Ts. (GER) as well as Salzburg (AUT). Since the year 2000, we advise clients in industry, service, trade and commerce sectors. Our typical customers in Germany and abroad usually employ between 200 and 5,000 staff.

We improve the profitability and measurably increase the value of our customers companies, but never lose one thing out of sight: our client's most valuable asset - the employees. To us, consultancy with a focus on people implies involving everyone - at all organizational levels - into change processes. Our permanent presence in the company departments in combination with our empathy and impeccable behavior towards other humans helps to maximize project success. This is the only way to implement your strategic and operative goals without impediments and on a sustainable basis.

### What We Look For

You have always had good ideas and you know the current consultancy terminology by heart? So, you're the right candidate – but not for us. We are looking for genuine entrepreneurs who, after devising a concept, also know how to implement it. And we practice what we preach: Consultancy with a focus on people; emotional intelligence, respect and an open-minded, friendly character are indispensable. After 3-4 years with b-p-k you will already assume responsibility for a project. Thus, combining your ambition to be a leader with a strong team spirit is mandatory if you want to work with us.

In addition to having the required personal traits you have excellent analytical and conceptual skills and perceptive faculties. You swiftly graduated with a Master's degree and passed with good to excellent marks. During several stays abroad you have learned to speak English fluently, and you can use MS Office standing on your head.

Depending on your entry level, you have gathered some relevant work experience in the consulting or industry sector or as a freelancer. You love travelling, you're resilient and you're looking for a job without drab routine? Take on the challenge and join us!

### What We Offer

At b-k-p Consulting you are an „entrepreneur in the enterprise“. From the outset we encourage and demand your full engagement to not only create and implement excellent solutions together with our clients, but also to develop our company. Besides learning on the job, we support your personal as well as your professional development with selected trainings and prepare you for your next career level in the best way possible.

In return for your commitment we provide you with an outstanding salary (Analysts start with 60.000 € p.a.), your learning curve runs steep and due to our flat hierarchies, you get the chance to actively create and to add value.

### Internship:

In between a Bachelor's and Master's degree or while studying to obtain the Master's degree, b-k-p Consulting offers you the opportunity to experience a management consultant's working day in real life

as an intern. On your very first day you will visit a client with one of our teams and support our analysts and consultants in managing exciting projects.

Analyst:

If you have a full Master's degree or university diploma, join b-k-p Consulting as an analyst. At this level you already assume (partial) responsibility for individual projects, you find creative solutions in collaboration with our client's employees and you may even be our interns' immediate contact.
